

When Scholarships Take Effect

Please note that the full tuition amount due will appear on a student's account. This amount does not reflect the granted scholarship amount.

The scholarship amount will not be reflected until after the course registration add/drop period which is two weeks after the start of classes.

SCHOLARSHIPS

Entrance Scholarships

International students who have demonstrated excellence in education are automatically considered for entrance scholarships.

Scholarships are awarded based on high school academic achievement (and for university transfer students, where applicable, additionally, academic achievement from the transferring university). Note that SAT scores are not used in Canada, and Windsor does not use these for admission decisions or scholarship decisions.

Scholarships are automatically considered for every student who has been admitted to the university. Students who qualify are informed of any award, at the same time as the admission decision is communicated. The University issues a written confirmation of scholarship awards so that students can use this when they are applying for a student visa.

Community Scholars Award for International Students

There are two awards annually for International students in second, third, or fourth year of their undergraduate studies who have excelled academically and contributed significantly to campus life through their involvement on campus in student government, clubs and/or athletics in the previous school year. The award is offered for the first time for students returning to studies in the fall 2009 term. The awards are valued between \$500 to \$5,000. The value is determined in part by the merit of the applicants.

For further details and to submit an application for consideration, please use the Awards Search function of the [SIS](#).

Women in Engineering

The President's National Alumni Incentive Scholarship (undergraduate) for women entering the Engineering faculty are also available to International students and are valued at \$1,000.

Those young women who have demonstrated excellence in their high school and have an outstanding academic background are automatically considered for this special entrance scholarship. What makes this scholarship unique is that it is meant to award women who wish to break the barriers of a traditionally male oriented field of study. This award is meant to reward merit and conviction.

Windsor International Student Employment Program

The [Windsor International Student Employment](#) (WISE) program will be offering a work/study award available for September 2009. This placement in the WISE program will provide 150 hours of part-time work at a rate of \$10 per hour. There are a total of 8 spots.

Students can defer the award to their second-year, when they may feel more settled at the university and more comfortable working in English.

Check the WISE website for updates: www.uwindsor.ca/wise

Outstanding Scholars Program

If you intend to major in an honours program in Classics, Modern Languages, French, Philosophy, Music, Physics, Earth Sciences (not Environmental Studies), Economics (not Business and Economics), Chemistry (not Biochemistry), Mathematics and Statistics, Industrial, Mechanical (Materials Option) or Environmental Engineering, or the Bachelor of Arts & Science Program, you will also be considered for our Outstanding Scholars Award Program.

Depending on your secondary school accomplishments, the value of the award will range from \$10,000 (\$1,500 X 4 years) to \$16,000 (\$2,500 X 4 years).

Students in this program will also be mentored in their first year in preparation for guaranteed Outstanding Scholars Appointments in their Department/School valued at \$2,000 in earnings for each of second, third, and fourth years, provided all conditions are met. Conditions vary by program.

For more details on the Outstanding Scholars Program visit: www.uwindsor.ca/outstanding

Other Awards

Additional awards can be applied to during the span of the student's education. Timely information on awards is posted around campus and information about specific awards can be found on the SIS. Admitted students can also log into the student account and check the section for "**Search for U of W Scholarships, Awards and Need-based assistance (including the Work Study Program) you may be eligible for.**" For some of these awards students have to apply in person while for most other awards students are considered automatically.

More information about scholarships can be found at [International Student Support](#).
